PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience building full-stack web applications, configuring and troubleshooting enterprise networks, and applying DevOps fundamentals. Skilled in developing dynamic, web applications, integrating third-party APIs. Completed four years of Cisco-aligned academic training spanning routing and switching, OSPF, VPN, and Cisco device configuration, as well as DevOps-oriented tooling including Docker, VMware, Python, and Postman. Adaptable, detail-oriented, and committed to continuous growth across software development, network administration, and infrastructure technologies.

TECHNICAL SKILLS

Networking & Cisco: Routing & switching, OSPF, VPN configuration, TCP/IP, subnetting, Cisco router/switch setup, network troubleshooting and diagnostics.

DevOps & Infrastructure: Docker, VMware, Postman (API testing), Python scripting, CI/CD fundamentals, infrastructure-as-code concepts, deployment workflows.

Web Development: HTML5, CSS3, JavaScript, PHP, MySQL, Bootstrap, RESTful API integration, Regex, PHP Composer, Gmail API integration, responsive UI design, backend validation & secure data handling

Programming Languages: C#, Python, PHP, JavaScript, Unity.

Tools & Platforms: Git/GitHub, Blender, Adobe Photoshop, Canva, AI-assisted development tools, hardware & software troubleshooting

Professional Skills: Problem-solving, critical thinking, analytical thinking, attention to detail, time management, adaptability, teamwork, technical communication

WORK EXPERIENCE

Customer Support Representative — *Cybersecurity Services* Nov 2025 – Aug 2026

- Supported cybersecurity products and services, troubleshooting technical issues and explaining security alerts and system notifications to users.
- Followed data privacy and security protocols while handling sensitive account information.

ON-THE-JOB TRAINING / INTERNSHIP EXPERIENCE

Full-Stack Web Developer Intern — *Gudlyf Property Corp.* Mar 2025 – May 2025

- Developed and deployed a dynamic, responsive company website with an integrated administrative dashboard, enabling non-technical staff to manage content without touching source code.

- Built a custom application form that processed submitted data and ID images, triggered automated Gmail notifications via PHP Composer, and displayed submissions in real time on the dashboard.
- Implemented secure API integrations and Regex-based input handling for user data, maps, links, and images.
- Designed a mobile-responsive front end with Bootstrap and implemented backend validation and secure data handling using PHP and MySQL.

EDUCATION

Bachelor of Science in Computer Engineering — Technological Institute of the Philippines (TIP), Quezon City

Accountancy, Business and Management (Grade 11-12) — Dr. Carlos S. Lanting College

DESIGN PROJECT / THESIS

Virtual Reality-Based Learning Simulation for High School Science Laboratories

- Developed an interactive VR learning platform providing a safe, immersive environment for high school science laboratory activities.
- Designed for 3D interaction, performance scoring, and testing across accuracy, efficiency, and compatibility, while addressing real-world engineering constraints.
- Built using C# and Unity for simulation and game logic development.

SEMINARS AND TRAININGS

AI & Emerging Technologies

- Empowering Language: Exploring the Depths of Natural Language Processing — *TIP* | Apr 11, 2024
- Building Multi-Agent RAG & Generative AI Fundamentals — *TIP, QC* | Sep 11, 2024
- AI for Everyone: Introduction to Machine Learning — *Institute of Computer Engineers of the Philippines (Zoom)* | Sep 23, 2024
- GenAI and Not to GenAI — *Institute of Computer Engineers of the Philippines (Zoom)* | Sep 07, 2024

Networking, Cloud & Cybersecurity

- SDWAN and Cloud Network — *TIP, QC* | Sep 16, 2024
- Fundamentals of Cybersecurity — *TIP, QC* | Sep 16, 2024
- Crypto: New Tech, New Opportunities — *TIP, QC* | Sep 18, 2024
- IoT Application in Building Management System — *TIP, QC* | Sep 14, 2024

DevOps & Software Development

- GitOps: Early Steps with Infrastructure as Code — *Institute of Computer Engineers of the Philippines (Zoom)* | Sep 07, 2024
- Enterprise Resource Planning (Oracle NetSuite) — *TIP, QC* | Sep 28, 2024

Professional & Academic Development

- Design Project Colloquium of All Engineering Programs — *Cisco Webex* | Aug 05, 2022
- Roadmap for Aspiring IT Professionals — *TIP, QC* | Oct 05, 2024

EXTRA-CURRICULAR ENGAGEMENTS

- Track & Field — Member | June 2014 – May 2018
- Catalyst Collider [C²] — Member of THE VRLYN's THEOREM | October 2024 – June 2025
